Follow Joshua as he creates two showpieces, an elegant Halloween wedding cake and a traditional wedding cake with a twist. To begin, he will cover tiers of cake with glazing techniques and cocoa spraying, highlighting the use of classic pastry techniques in cake design. But don't be intimidated, Joshua will show easy and time saving ways to get these modern and contemporary looks!

Indulging her love for all things Halloween, and incorporating the “Selfie” theme of The Tulsa State Fair this year, Karen will be creating the bust of a very playful Witch, “Duck Face Dagmar”, who just wants to photo bomb your selfie! Beginning with the cake and structure, Karen will demonstrate the filling and carving of larger cakes, along with basic structure.
